SPM Simulations Series offers a great collection of modular, interactive simulations in SPM Science, Biology, Physics and Chemistry for teachers. A wonderful supplemental teaching material that can help teachers to provide more individualised instruction for their students with less preparation time required.

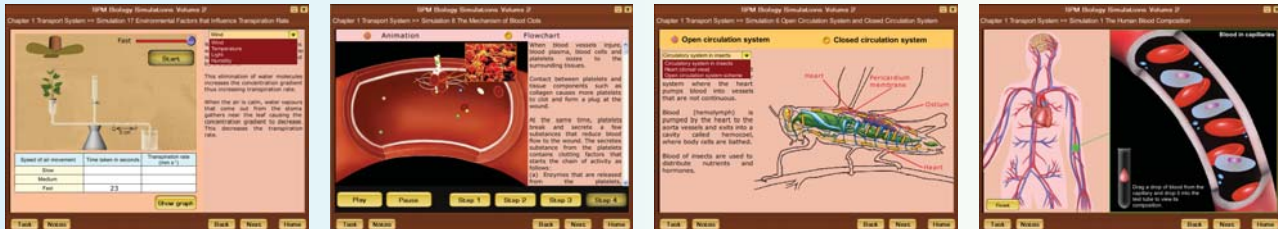

Features:

1. Based on the latest KBSM syllabus.
2. Simulations developed based on actual physics characteristics to create realistic visualisations.
3. Parameters for simulations can be set freely and the results will be shown instantly.
4. Tons of 3-D animations to visualise complicated scientific processes.

SIMULATIONS SERIES

This product is marvellous. With lively animations and interactive simulations, students can now grasp the difficult concept faster and easier.
 ~ Cikgu Ramli Idris, SMK Hamzah, (Science teacher with 15 years of experience)
